## Reviews of the **Drawing and Painting Architecture** *by* Ray Evans

I like Ray Evans style "A La Prema" in some of his sketch and painting found in this book. This style influence my painting ever since. A great book for beginners and professional alike. Buy one.

I recently purchased this book as I saw some of Ray Evans sketches in one of my watercolor books and fell in love with his sketch style. I love this book. His linework is wonderfully loose and his

watercolors of the architecture are beautiful. If you are interested in sketching architecture, this is a must have book.
