## **Reviews of the Pepita Jimenez (Clasicos comentados) (Spanish Edition) by Enrique Rubio Cremades, Juan Valera**

Nnulam

The story is good, a Spanish classic, of course. It is considered one of the first psychological novels in Spain. It was really helpful to have the bilingual edition for my class, but the reason I am only giving it three stars is because it is pretty poorly translated. Every time there was a questionable phrase in English (which happened pretty frequently), I looked over at the Spanish side and the English was not a good translation of the Spanish text. I bought the bilingual edition because I

needed the English for the sake of time, but I feel like it needed a lot of work. Hopefully someone comes out with a better translation.

Anaragelv

Very good for all family

Thanks

Visonima

es exactamente lo que estaba esperando estoy muy satifecho con el producto me encanta y el precio esta perfecto gracias

Eseve

It is an excellent book! It is a great- new condition as I read it! again thank you so much. Claudia.  
felt boot

Arrived a little later than I expected, but besides that, it was a good order.

It was way too difficult and the vocabulary seemed very outdated.
