Category:	Politics & Government

Human Rights in the Commonwealth presents a comprehensive survey of the state of human rights, as measured by each country's formal engagement with the main international standards and norms, across the fifty-three member countries of the association. For each country, the report details the human rights instruments signed, ratified or acceded to, together with information on the various human rights institutions in the country. The report also includes articles on key human rights themes of global relevance.
